

CURRICULUM VITAE

Davronbek Matrasulov

ORCID ID 0000-0001-8957-0058

Affiliation: Turin Polytechnic University in Tashkent
Phone: +998 (71) 246 6394

E-mail: dmatrasulov@gmail.com
d.matrasulov@polito.uz

Education:

1989-1993 Tashkent State University, Physics Faculty, Department of Theoretical Physics.
1995-1999 PhD student at Heat Physics Department of the Uzbek Academy of Sciences.
Degree obtained: Doctor of Phys.-Math. Sciences (2000).

Career/Employment:

1999-2000 Researcher at Heat Physics Department of the Uzbek Academy of Sciences.
March 2000-June 2000, senior researcher.
2001-2003 Postdoctoral Fellow at the Physics Department, University of Alberta (Canada)
2003-2010 Head of the Laboratory of Advanced Studies at Heat Physics
Department of the Uzbek Academy of Sciences.
2009-present Chairman of the Physical Society of Uzbekistan
2010—2018 Head of the Innovation Center, Turin Polytechnic University in Tashkent
2010—present Head of the Laboratory for Advanced Studies, Turin Polytechnic
University in Tashkent
2020—present Professor of the Department of Mechanical Engineering

Honors, awards:

1998 - Young Scientist Award of the Uzbek Academy of Sciences
1999 - Award of the State Committee for Science and Technology of Uzbekistan
2000 - Award of the Uzbek Academy of Sciences for the Best Research of the Year.
2001 - NSERC-NATO Fellowship (Canada)
2002 - COBASE Grant of the U.S. National Research Council
2003- Award of the Third World Academy of Sciences
2003 - Matsumae International Foundation Fellowship (Japan).
2004 - NATO-DAAD Fellowship
2004 - NATO Collaborative Linkage Grant
2005 - NATO Reintegration Grant
2005 - JSPS Short-Term Fellowship(Japan)
2006 - INTAS GSI Collaborative Grant
2006 – Volkswagen Foundation Grant
2007 - INTAS YS Fellowship
2007- DAAD Fellowship
2012 - NATO grant for Advanced Research Workshop
2013 – DAAD Fellowship

2013 - TWAS Research grant
2017 – Simon Professor Fellowship

Research visits abroad:

International Center for Theoretical Physics (Trieste, Italy) 2000;
Physics Department, University of Alberta (Edmonton, Canada) 2001-2003;
Physics Department, City University of New York 2002;
Physics Department, Tokai University (Hiratsuka, Kanagawa, Japan) 2003-2004;
Physics Department, City University of New York 2004;
Helmholtz Institute, University of Bonn 2004;
GSI, Darmstadt (Darmstadt, Germany) 2004;
Institute for Nuclear Physics, Research Center at Juelich 2004;
Feza Gursey Institute (Istanbul, Turkey) 2005;
Physics Department, City University of New York 2004;
Physics Department, University of Alberta (Edmonton, Canada) 2005;
GSI, Darmstadt (Darmstadt, Germany) 2005;
Applied Physics Department, City University of Osaka (Osaka, Japan) 2005;
Institute of Theoretical Chemistry, University of Heidelberg (Heidelberg, Germany) 2006
Department of Physics and Astronomy, University of Heidelberg (2007-2009)
Theoretical Physics Institute, University of Dusseldorf (Dusseldorf, Germany) 2012
Theoretical Physics Institute, University of Dusseldorf 2012
Max Planck Institute for Dynamics and self-Organization (Goettingen Germany) 2013
University of Oldenburg (Oldenburg, Germany) 2013
University of Dusseldorf 2013
University of Oldenburg – 2014
University of Dusseldorf – 2014
Waseda University -2015
Tokyo Metropolitan University – 2015
Osaka University - 2015
University of Freiburg – 2015
University of Oldenburg – 2015
University of Wurzburg -2015
ICTP, Trieste -2016
University of Freiburg -2016
University of Wuppertal – 2017
University of Dusseldorf – 2017
ICTP, Trieste -2017
Mathematisches Forschungsinstitut Oberwolfach – 2017
Technical University of Chemnitz – 2019
ICTP, Trieste – 2019
Physikzentrum Bad Honnef, Bonn, Germany – 2020
University of Dusseldorf – 2022
Ilmenau Technical University – 2022, 2023
ICTP, Trieste -2022, 2023
University of Wuppertal – 2023
Nuclear Physics Institute, Czech Academy of Sciences – 2022, 2023

Membership in academic societies and international scientific organizations

Member of the Physical Society of Uzbekistan (since 2005)
Chairman of the Physical Society of Uzbekistan (since 2009)
ICTP Regular Associate Member (2012 - 2018)
ICTP Senior Associate Member (Since 2021)
LAAAMP member (since 2021).

International meetings attended:

Participated, presented talks at more than 50 international conferences, workshops and symposia.

Organization of international conferences (most important ones):

- 2004 - Co-director of the NATO Advanced Research Workshop, "Nonlinear Dynamics and Fundamental Interactions", October 11-16, Tashkent, Uzbekistan (www.ndfi04.uzsci.net).
- 2008 - Co-director of NATO Advanced Research Workshop, "Recent Advances in Nonlinear Dynamics and Complex System Physics: From Natural to Social Sciences and Security", October 6-11, Tashkent, Uzbekistan (<http://nonlin08.fan.uz/>).
- 2008 - Co-organizer of the Young Scientists Workshop on Condensed Matter Physics, December 18-19, 2009, Tashkent, Uzbekistan.
- 2012 – Co-organizer of the International Conference “Complexity in Earthquake Dynamics”, January 25-26, Tashkent, Uzbekistan (<http://seismo2012.sci.uz>)
- 2012 – Organizer of the Advanced Research Workshop “Recent Trends and Prospects for Renewable Energy”, October 2-3, Tashkent, Uzbekistan (<http://www.energy2012.sci.uz>)
- 2012 – Co-organizer of the NATO Advanced Research Workshop “Recent Trends in Energy Security: With special emphasis on low-dimensional functional materials”, October 15 – 19, Tashkent, Uzbekistan.
- 2013 - Co-director of the NATO Advanced Research Workshop “New Challenges in Complex System Physics: Disaster forecasting, crisis modeling, and sustainable development”, May 20-14, Samarkand, Uzbekistan (<http://csp2013.sci.uz>)
- 2013 – Co-organizer of International Symposium “Complex Nonlinear Systems: From basic science to applications”, October 7 – 11, 2013, Samarkand, Uzbekistan (<http://cns-samarkand.sci.uz>)
- 2013 - Co-director of International Conference “First Dynamics Days Central Asia”, October 11 – 13, 2013, Samarkand, Uzbekistan (<http://dynamicsdays-ca.sci.uz>)
- 2015 – Co-director of ICTP Summer School “Modern Trends in Theoretical Condensed Matter Physics: From Low-Dimensional Nanoscale Systems to Advanced Materials for Photovoltaic May 18-29, 2015 Khiva, Uzbekistan” (<http://tcmp2015.sci.uz/>)
- 2015 – Co-director of International Conference “Second Dynamics Days Central Asia”, May 25-27, 2015, Khiva, Uzbekistan (<http://ddays2.sci.uz/>)
- 2016 – Organizer of the International workshop “Wave Dynamics in Networks and Branched Structures: From Nano to Macro Scale”, May 25-27, Tashkent, Uzbekistan (<http://network2016.las.uz/>)
- 2016 - Organizer of the International Conference, “Recent Advances in Photovoltaics: Novel materials and device concepts for flexible and thin-film solar cells”, September 28 – October 01, Bukhara, Uzbekistan
- 2017 – Co-director of the International Summer School, New Advances in Condensed Matter Physics, September 20 -27, Khiva, Uzbekistan
- 2017 – Co-organizer, Asia Pacific Conference and Workshop on Quantum Information Science, September 26 -28, Khiva, Uzbekistan
- 2017 – Co-director of Fourth Dynamics Days Central Asia, October 21 -23, Bukhara, Uzbekistan.
- 2019 – Co-organizer, ICTP Summer School, Advances in Condensed Matter Physics: New Trends and Materials in Quantum Technologies, May 7 -15, Samarkand, Uzbekistan (<http://acmp2019.las.uz>).
- 2019 - Co-organizer, Summer School, New Trends in Quantum Information Science, September, 10 -18, Samarkand, Uzbekistan (<http://qis2019.las.uz>).
- 2019 - Co-director of Fifth Dynamics Days Central Asia, September 18 -20, Samarkand, Uzbekistan (<http://ddca5.las.uz>).
- 2022 – Co-organizer, Uzbekistan-Korea Conference, "New Trends in Condensed Matter Physics" October 6-9, 2022, Khiva, Uzbekistan
- 2023 – Co-organizer, ICTP Summer School, “New Trends in Modern Quantum Science: from Novel Functional Materials to Quantum Technologies”. September 22 -30, Bukhara, Uzbekistan (<https://mqqs2023.las.uz>).

2023 - Co-director of 8th Dynamics Days Central Asia, October 01 – 04, , Bukhara, Uzbekistan
(<https://ddcac8.las.uz>).

2023 - Co-director of the Summer School, "Future prospects of perovskite based solar cells:
Low carbon energy conversion through advanced functional materials"
May 14 - 21, 2023, Khiva, Uzbekistan

Languages:

Uzbek, Russian(bilingual),
English(fluent)
French(conversational level)
Turkish(conversational level)

Current Research Interests:

Condensed matter physics

Nonlinear optical phenomena in low-dimensional functional materials
Low-dimensional quantum materials, graphene, CNT, topological insulators, etc
Majorana quasiparticles in low dimensional structures
Weyl semimetals
Josephson junctions
Energy conversion in organic semiconductors

Nonlinear dynamics, chaos theory and complex system physics:

Nonlinear dynamics in mesoscopic and nanoscale systems;
Nonlinear waves in networks and branched structures;
Deterministic chaos in atomic, molecular and supramolecular systems;
Earthquake dynamics and modeling;
Theory of complex networks and its applications;

Nanophysics:

Thermal and thermoelectric transport in low-dimensional systems and nanostructures;
Quantum transport in nanostructures;
Classical and quantum dynamics of confined nanoscale systems;
Cavity quantum electrodynamics;
Casimir effect in nanoscale systems;
Finite-temperature field theories and its application to nanoscale systems.

Atomic and molecular physics

Elementary processes in high and low- energy ion-atom collisions
Cold atoms and BEC
Relativistic atoms and molecules;
Collisions of atoms with high energy photons;
Vacuum effects and supercritical phenomena in atoms interacting with strong electromagnetic fields.

PUBLICATIONS

Newspaper articles and interviews:

More than 20 interviews and articles in different local newspapers on the issues of nanotechnology, renewable energy and complex systems.

Selected research articles:

Books

1. Non-linear Dynamics and Fundamental Interactions, Springer (2006) (with F.C. Khanna).
2. Complex phenomena in nanoscale systems, Springer (2009) (with G. Casati).
3. Low-dimensional Functional Materials, Springer (2013) (with R.Egger and Kh.Rakhimov)
4. Nonlinear Phenomena in Complex Systems: From Nano to Macro Scale (Springer 2014) (with H.E. Stanley)
