

ISRAFIL YUSUBLU

PHYSICS STUDENT

 yusubluisrafil@gmail.com

 +994509992585

EDUCATION

School № 269

Primary and High school

2011 - 2022

Baku State University

Physics. GPA 90.0/100

2022- Current

SKILLS

- Teamwork
- Responsible
- Research

LANGUAGES

- English *B2*
- Azeri *Native*
- Turkish *B2*

HOBBIES

- Reading
- Listening music
- Swimming

ABOUT

When I graduated from high school, I focused on physics and mathematics. I want to build my career in physics. Quantum mechanics and quantum field theory caught my eye. Understanding the theory of this area is one of my most basic targets. That's why I became deeply interested in mathematics because it's imperative to understand the mathematics of these theories. Learning about innovations in other fields of physics encourages me to explore me all the time, which was one of my hobbies. I'm also interested in working with artificial intelligence, as well as modelling physical events with the help of programming languages, so I'm very interested in this field.

PAST EXPERIENCES

8TH INTERNATIONAL CONFERENCE. MODERN TRENDS IN PHYSICS

Volunteer: Baku State University
