

Nadeem Fazal, M.D, Ph.D. is a Professor of Microbiology, Immunology, Physiology and Infectious Diseases at Chicago State University, Chicago. He received his MD from King Edward Medical University, Lahore, Pakistan, and Ph.D. in Immunology from The University of Birmingham, England, United Kingdom. He is a member of the American Association for Immunologists (AAI) and American Society for Microbiology (ASM). He completed his Post-doctoral training, Fellowship and later served as faculty at Stritch School of Medicine Loyola University Chicago, Illinois, USA. Dr. Fazal began his teaching career at the Department of Microbiology and Immunology, Rawalpindi Medical College, The University of Punjab, Lahore. He also served as faculty at Chicago State University Department of Biological Sciences. He has received President's and Young Scientist Award from Societies of General Microbiology (SGM), American Society for Microbiology (ASM) and British Society for Immunology (BSI). He was also a recipient of Rowtham Bequest Award from The University of Birmingham, England, United Kingdom. His research interests include investigating mechanisms of cellular immune responses to acute injury/infection and pharmacological agents modulating such host responses. He has published more than 40 papers in peer-reviewed scientific journals. Dr. Fazal is a member of numerous scientific and professional organizations, including, The American Physiological Society (APS), The American Society of Human Genetics (ASHG), and The American Association of Colleges of Pharmacy (AACP).

Dr. Fazal is currently on Fulbright Award to Azerbaijan. The Fulbright Program, which aims to increase mutual understanding between the people of the United States and the people of other countries, is the flagship international educational exchange program sponsored by the U.S. government.
