	http://freecomputerbooks.com/compscMiscBooks.html				
	http://www.computingbook.org/				
	Supplemantary textbooks				
	3.Microsoft Office Professional 2013 Step by Step 1st Edition, by Beth Melton, Mark				
		ord, Andrew Couch, O'Reilly Media Inc, 2013.			
	4. Microsoft Office 2016 Step by Step, Joan Lambert & Curtis Frye				
	5. Windows 7				
	For class presentations and discussions, the students should utilize the Newspaper,				
	Journal and Internet materials.				
Course outline	This course introduces undergraduate students the basics of Computer Science. Lecture notes given in classes will be conducted by examples which are crucial for better understanding of material. First lectures are designed to give an overview on computers' generation and their history. Later, computer components, computer network types and system design will be discussed. Next classes will be dedicated to detailed observation on different computer based applications. Mainly, Microsoft Office programs (Word, Excel, and PowerPoint) will be explained with complementary examples and exercises.				
Course objectives	General Objective General objectives Computer science Specific Objectives To familiarize To get acquain PowerPoint);	ned for every student of Khazar University. etive of this course is to provide students with core understanding of ence and its application in business; e students with computers' history, its components and system design; need with different Microsoft Office programs (Word, Excel, and of the Operating Systems (Windows7); earching.			
Learning outcomes	structure and system d	esign, to provide core understanding in computer systems, and will gain working experience in Microsoft Office programs (Word, t).
