

Babak Rustamzade

Operations & Planning Consultant

Chemical Engineer and Consultant at IOG Solutions with experience in solution implementation for a leading CPG company. Certified as a Solution Consultant by Kinaxis, with strong capabilities in supply chain planning, process optimisation, and data-driven decision-making. Background spans petrochemical operations, polymer manufacturing, and technological innovation. Adept at managing end-to-end project delivery, transforming business requirements into technical solutions, and collaborating across global, cross-functional teams. Bilingual in Azerbaijani and English.
