Baku Azerbaijan

EDUCATION

M.Eng, Oil Processing
Technology
**Azerbaijan State Oil And
Industry University,**
June 2024

- Basic Modules
- Process Simulation
- Catalytic Processes
- Chemical Challenges

B.Eng, Chemical Engineering
Baku Higher Oil School,
June 2022

- Basic Modules
- Fluid Mechanics
- Heat Transfer
- Process Control
- Separation Processes
- Chemistry of Materials
- Thermodynamics

KARIM AHMADOV

PROFESSIONAL SUMMARY

District Sales Representative with a focus on production chemistry, supporting offshore operations through chemical treatment guidance and troubleshooting. Background in production engineering with hands-on experience in refinery operations, maintenance, and start-up phases. Strong communicator and team player, committed to optimizing performance and ensuring safety and compliance.

SKILLS

- Material chemistry expertise
- Collaborative teamwork
- Emergency rescue diving
- Analytical strategic thinking
- Proficient in Microsoft Office
- C++ development
- Flexible project management

WORK HISTORY

October 2024 - Current

ChampionX/SLB - District Sales Representative (Production Chemist) Azerbaijan

- Advised on chemical injection rates and field issues for BP's WCH & DWG platforms.
- Led evaluations and projects to mitigate chemistry risks and enhance production.
- Supported chemical changeovers: assessed compatibility, risks, and cost/performance.
- Monitored lab/system data to optimize treatment; forecasted chemical demand.

July 2022 - October 2024

SOCAR Downstream Management - Production Engineer, Baku, Azerbaijan

- Supervision of the Site Work
- Operation of DHT, HPU unit in oil refinery
- Pre-commissioning and Commissioning of the Pipelines
- Participated in Asset Criticality Analysis
- Handover of Process and Utility Pumps

February 2022 - April 2022

Technip Energies - Engineering Trainee, Baku, Azerbaijan

- Acquiring the essential knowledge on downstream industry and energy transition

August 2021 - September 2021

SOCAR Ammonia and Urea Complex - Process Engineering Intern, Baku, Azerbaijan

- Deepening knowledge of key process unit operations in ammonia production.
- Taking a deep insight in the controlling systems

June 2019 - July 2019

Heydar Aliyev Baku Oil Refinery - Process Engineering Intern, Baku, Azerbaijan

- Getting familiar with the processes occurring in oil refining.
- Observing and learning the working principles of the Refinery devices and equipment
