Prerequisites	-					
Language	English					
Compulsory/Elective	Compulsory					
Description						
Required textbooks	1 George Thor	nas et al Thor	nas' Calculus: Fa	rly Transcendental		
and course materials	1. George Thomas, et al, Thomas' Calculus: Early Transcendental, 12th edition, Addison-Wesley (2010), (http://libgen.org/)					
	2. V.V. Konev. Linear Algebra, Vector Algebra and Analytical Geometry, Textbook. Tomsk: TPU Press, 2009, 114 pp.					
	3. David C. Lay, Linear Algebra and its Applications. 4 th edition, 2012					
	Supplementary book					
	1. James Stewart, Essential calculus. Early transcendentals, Second					
	Edition, Brooks/Cole (2013)(http://libgen.org/)					
	2. Poole, D., Linear algebra: a modern introduction. 4 th Edition, 2014.					
Course outline	Linear algebra and analytic geometry is a major course at School of					
	Economics and Management. This introductory course covers two content					
	areas: Linear Algebra	a and Mathem	atical analysis. Th	nis introductory course		
	covers differentiation, matrix operations, determinants and systems					
	of linear equations.					
	Topics:					
	Concept of functions; trigonometric functions					
	Limits and continuity					
	Derivative; Differentiation rules					
	Matrix algebra					
	Determinants					
	Systems of linear equations					
	• Gaussian elimination					
Course objectives	The concepts of limit; tangent to curve; differentiation; chain rule;					
9	calculations of determinants, matrix operations, Systems of linear quations,					
	Gaussian elimination.					
Learning outcomes						
Learning vacconics	Upon successfully completing this course students will be able to: To find limit of functions at points					
	To find mint of functions at points To find derivatives of functions					
	 To find derivatives of functions To apply theorems to solve real world problems 					
	Calculations of determinants					
	Matrix opera					
	-	s of linear equ	ations			
Teaching methods	Lecture x					
	Assisted work		X			
	Assisted lab work			X		
Evaluation	Methods	Dat	te/deadlines	Percentage (%)		
	Midterm Exam			30		
	Class Participation			5		
	Quizzes (4-5)			20 (2 quizzes)		
				1 1		

PLEASE turn them off before lecture! (Not silent or vibrating modes is a university policy and violators will be reprimanded according. No late assignments will be accepted without prior arrangement instructor for acceptable excuses. Medical and family emergence considered on case-by-case basis. No late homework will be accepted. Homework is to be comple individual basis. Students may discuss homework with classification students are responsible for your own work. If students have collassing please note the individuals name on the top of assignment. Quizzes may be given unannounced throughout the term and was one homework. There will be no make-up quizzes.
