Marking Criteria

Attendance

- Regular Attendance: Attends class sessions consistently, with minimal absences.
- Punctuality: Arrives on time for class sessions.

Participation

- Active Engagement: Regularly contributes to class discussions and activities.
- Quality of Contributions: Offers thoughtful and insightful comments that demonstrate understanding of the material.
- Respectful Dialogue: Listens attentively to others and engages in respectful and constructive dialogue.

Quiz I

- Knowledge and Understanding: Demonstrates a clear understanding of the key concepts, and theories covered in the first half of the semester.
- Application: Can effectively apply theoretical knowledge to real-world scenarios and case studies related to the covered material.
- Accuracy: Answers questions accurately and comprehensively.

Midterm Exam

- Knowledge and Understanding: Demonstrates a clear understanding of key concepts and theories related to psychopathology.
- Critical Thinking: Applies critical thinking skills to analyze and evaluate information, drawing logical conclusions and making well-supported arguments.
- Clarity and Organization: States ideas clearly and logically, using appropriate language and structure.

Quiz II

- Knowledge and Understanding: Demonstrates a clear understanding of the key concepts and theories covered in the second half of the semester.
- Application: Can effectively apply theoretical knowledge to real-world scenarios and case studies related to the remaining material.
- Accuracy: Answers questions accurately and comprehensively.

Final Exam

- Comprehensive Understanding: Demonstrates a comprehensive understanding of the course material, including key concepts and theories.
- Critical Thinking and Application: Applies critical thinking skills to analyze and evaluate information, and effectively applies theoretical knowledge to real-world scenarios.
- Problem-Solving: Can solve problems related to psychopathology, demonstrating a deep understanding of the subject matter.
- Clarity and Organization: States ideas clearly and logically, using appropriate language and structure.

Rules (educational policy and behavior)

We want to build a classroom climate that is safe for all. It is important that we

- display respect for all members of the classroom including the instructor and students;
- pay attention to and participate in all class sessions and activities;
- avoid unnecessary disruption during class time (e.g. having private conversations, reading the newspaper, surfing the Internet, doing work for other classes, making/receiving phone calls, text messaging, etc.);
- avoid racist, sexist, homophobic, or other negative language that may unnecessarily exclude members of our campus and classroom. This is not an exhaustive list of behaviors; rather, it represents examples of the types of things that can have a dramatic impact on the class environment.
