

<b>Subject Details</b>	Subject Title, code and credit hours	PSYC 304 Educational Psychology, 3KU (6AKTS)	
	Department	Psychology	
	Program (bachelor's and master's degree)	Bachelor	
	Associated Term	2024 fall	
	Instructor	Sevinj Maharramova	
	E-mail:	sevinjmaharramova.telimchi@gmail.com	
	Phone	-	
	Lecture room/Schedule	Nefchilar campus	
	Consultations	Make an appointment in a mail	
<b>Teaching language</b>	English		
<b>Subject type (mandatory/elective)</b>	Mandatory		
<b>Readings</b>	<p>Required Textbook</p> <ol style="list-style-type: none"> <li>1. K. Seifert and R. Sutton. Educational Psychology. Second edition. 2009</li> <li>2. Woolfolk, A. (2018). Educational Psychology (13<sup>th</sup> Edition). Pearson</li> <li>3. S. E. Wood, E.G. Wood and D. Boyd (2005). Mastering the world of psychology. USA; Pearson Education</li> </ol>		
<b>Teaching methods</b>	Lecture		+
	Group discussions		+
	Activities		+
<b>Assessment and Grading</b>	Components	Deadlines	Percentage (%)
	Midterm exam	Week 8	30
	Being active member of learning community	During semester	5
	Attendance	During semester	5
	Presentation/Group discussion	Each lecture has its group discussion and ppt	20
	Final exam		40
<b>Course outline</b>	<p><b>Educational Psychology</b> sets out to provide the students to be aware of the challenges &amp; possibilities of teaching. The students are taught an understanding of theories of learning and development and how these theories relate to educational environment. It aims not just the learning process of early childhood and adolescence but includes the social, emotional, and cognitive processes that are involved in learning throughout the entire lifespan.</p> <p>This course provides a comprehensive overview of learning theories and their practical applications.</p>		
<b>Course aims</b>	<p>As a result of teaching the subject, the student should possess the necessary knowledge about the following issues:</p> <ol style="list-style-type: none"> <li>1. A general understanding of educational psychology.</li> <li>2. Basic concepts related to learning and development.</li> <li>3. Characteristics of children's development.</li> <li>4. The ability to identify factors affecting learning, including the influence of family, school, teachers, and the social environment.</li> <li>5. The ability to shape the teaching environment effectively.</li> <li>6. The ability to choose appropriate responses in problematic situations.</li> <li>7. Skills and habits in understanding learning theories and applying these theories in the educational environment</li> </ol>		

<b>Learning Outcomes</b>	<p>At the end of the course students will be able to acquire the following:</p> <ul style="list-style-type: none"> <li>• Mastery of fundamental principles and theories in educational psychology.</li> <li>• Ability to apply psychological theories to improve teaching practices and student learning.</li> <li>• Understanding fundamental principles and processes related to how individuals learn and grow.</li> <li>• Develop Expertise in Classroom Management: Gain in-depth knowledge and skills for creating and maintaining an organized and productive learning environment.</li> <li>• Build effective communication techniques to foster positive interactions and support student needs.</li> </ul>
<b>Marking Criteria</b>	<p><b>I. Activity</b></p> <ul style="list-style-type: none"> <li>• Demonstrate the ability to express a personal approach during question-and-answer sessions, which measures comprehension of the lesson in each discussion.</li> </ul> <p><b>II. Group Presentation / Group Discussion</b></p> <ul style="list-style-type: none"> <li>• Effectively divide duties to achieve the group's common goal and fulfill individual responsibilities.</li> <li>• Apply active listening and empathy skills when disagreements arise during discussions.</li> <li>• Use positive communication methods to advance one's ideas during the discussion.</li> <li>• Adapt to team dynamics and contribute to achieving a successful outcome.</li> <li>• Avoid monotonous speech during the presentation.</li> <li>• Exhibit team spirit throughout the presentation.</li> <li>• Introduces an "energizer" to stimulate participants</li> <li>• Engage the audience using role-playing, practical demonstrations, equipment, video, and citation from international scientific studies.</li> </ul>
<b>Rules (educational policy and behavior)</b>	<p><b>Attendance Policy and Criteria for Being Late for a Lesson:</b></p> <ul style="list-style-type: none"> <li>• A student who arrives late to class will be permitted to enter the auditorium, but their tardiness will be noted. They are expected to sit quietly, listen to the lesson, and join in discussions without causing any disruption.</li> <li>• It is important for students to attend all classes. If a student is unable to attend due to a valid reason (such as illness or family issues), they must report the matter to the faculty dean. Students who miss more than 25% of the total subject matter hours will not be allowed to take the exam.</li> <li>• Attends every lesson; 1 point is deducted for every 2 lessons missed.</li> </ul> <p><b>Criteria for Practical Work:</b></p> <ul style="list-style-type: none"> <li>• Students must identify projects for individual presentation and present them to the group, focusing on innovation and topic-based research.</li> <li>• Students will be actively involved in questionnaire and questioning methodologies to self-assess and gain</li> </ul>

	insights into new teaching and learning skills for each subject.  <b>Criteria for Assessing Activity:</b>  <ul style="list-style-type: none"> <li>• Disruptive behavior in the classroom, use of unethical language, inappropriate and unauthorized discussions, use of cell phones, hearing aids, radios, and engagement in activities unrelated to the course (such as reading, writing, taking pictures, etc.) are considered factors affecting activity.</li> <li>• Active participation in discussions is required.</li> </ul>	
Week	Topics	Referance
